

- I used Dataset Soccer (it's Football not Soccer)
- Questions:
 1. what is team general stats?
 2. is team (home or away) match effect the results?
 3. Does team score more goals in home than away?
 4. Does team concede more goals in away than home?
- Description:
 1. Filter choosing Team data from all data set
 2. Check team stats (win, lose and draw)
 3. What is the percent of each stat in home and away?
 4. How many goals did they score and concede in general?
 5. How many goals did they scored and concede at home game?
 6. How many goals did they scored and concede in away game?
- Summary:
 1. Teams do score more goals and concede less goals at home game
 2. Team more likely to lose match or draw in away game

- Visualization:
